

IMPRESSIONS

VELCRO-ENHANCED STRUCTURED ACOUSTICAL WALLCOVERING

Construction:	Acoustical non-woven fabric
Fiber:	Fossfibre 100% solution dyed polyester staple fiber with <i>Hy-Performance</i> binding fiber for enhanced pill resistance
Finish:	<i>Stain & Soil repellent finish</i> for increased cleanability
Weight:	17.3 oz. per square yard 34.6 oz. per linear yard
Width:	available in both 74/72" and 110/108" width
Roll size:	30 linear yards
Packaging:	Polywrapped and rolled on 4" hardwall cores
Colorations:	Stone, Marble, Autumn Shade

PERFORMANCE RATINGS

Flammability:	Class A per ASTM E-84 Passes UBC 8-2 (formerly 42-2) (Corner Burn)
Velcro Resistance:	Minimal pilling after 100 pulls of industrial grade hook
NRC Rating:	.60 over acoustical backer board .20 over Gypsum board

Installation: Fabric can be railroded for a horizontal, seamless rib pattern -- or hung off the roll for a vertical rib pattern.

For best results, it is recommended that a qualified textile wallcovering installer be employed.

Additional detailed maintenance and installation instructions are included with every shipment, and should be read prior to installation.
