HYTEX DECORATIVE TEXTILES

Hytex Acoustical Fabrics MAINTENTANCE AND CLEANING INSTRUCTIONS

Through installation procedures, or consumer use, fabric may become contaminated and require spot cleaning from time to time. The following information is provided as a guideline for the care and cleaning of acoustical fabric made from Polyester fibers. Because this material is made from synthetic fibers, it cleans very well with virtually no damage to the color or construction itself. Most commercially available *Carpet and Upholstery* cleaners will do an excellent job removing stains. From time to time, additional cleaning methods may need to be employed to remove stubborn or difficult stains.

GENERAL

As with any stain or contamination, the quick response is the best, especially when done in conjunction with the proper cleaner for the type of stain. **Important:** make sure you have selected the right cleaning agent from the list below before you begin the cleaning process. The categories of stains listed below are based on 1) stains acquired during OEM manufacture and 2) acquired by consumer/end-user following installation of fabric.

OEM FABRICATION INCIDENTS:

CLEANING AGENT	HOW TO REMOVE
high strength detergent	soak-blot dry
detergent	scrub-rinse-blot dry
mineral spirits	soak-blot dry
detergent	scrub-rinse-blot dry
dry clean solvent	soak-blot dry
detergent	scrub-rinse-blot dry
detergent	scrub-rinse-blot dry
high strength detergent	scrub-rinse-blot dry
solvents/mineral spirits	soak-blot dry
high strength detergent	scrub-rinse-blot dry
solvents/mineral spirits	soak-blot dry
K-1 kerosene/solvents	soak-blot dry
	high strength detergent detergent mineral spirits detergent dry clean solvent detergent detergent high strength detergent solvents/mineral spirits high strength detergent solvents/mineral spirits

Note: In many cases listed above, repeated steps may be required to fully extract the contaminant from the material. Use solvent type cleaners in a well ventilated area.

Note: Always check to see that the cleaner will not cause damage to material or fabric, by testing on a small area out of sight.

CONSUMER / END USER INCIDENTS:

TYPE OF STAIN	CLEANING AGENT	HOW TO REMOVE
